*calls cost 5p per minute plus your phone company's access charge

The Starting in Business Programme is available to individuals based in Nottinghamshire, Derbyshire, Leicestershire and Greater Lincolnshire.

WEEK 1 - 2 DAY WORKSHOP

This intensive 2 day workshop led by an experienced business trainer will teach you the nuts and bolts of starting and running a successful business including: what skills are needed to run a business, the importance of Business Planning, how to market your business, understanding opportunities and risks and how to manage money in a business.

WEEK 2 - 1 DAY BUSINESS PLAN

"He who fails to plan is planning to fail!" – Sir Winston Churchill

It's time to focus in on the Business Plan, the all-important 'road map' for your business. Of course if you are looking to raise money through loans, investment or grants then you'll need a business plan. If not, it's simple: businesses with a clear, well thought out Business Plan survive and grow better than those without.

In this interactive full day session you'll learn the component parts of the Business Plan, how to ask yourself the right questions, the importance of comprehensive market research, how to calculate your start-up costs and how to develop realistic financial projections.

We will also talk about the additional support that NBV can provide once you are up and running including business advice, business workshops, networking, office facilities and much more.

Upon completion of the 3 days you'll get a certificate and more importantly you'll have everything you need to get your business up and running!
