NOTES FOR GUIDANCE:

1. If a licence is granted to you it will be subject to the Conditions of Licence for Private Hire Operators and any additional conditions the Council may deem necessary.
2. with effect from 1st January 1994, planning permission will not normally be required for the operation of a taxi and/or private hire business from a private residential property provided that:-
 - (a) Vehicles:
 - (i) only one vehicle is parked at and/or controlled from the property;
 - (ii) the one permitted vehicle is a passenger carrying saloon car, estate car or mini-bus with up to 9 seats capacity (including the driver);
 - (iii) no self-drive private hire cars or vans are based at or controlled from the property;
 - (iv) such operations do not constitute a part of a light haulage/courier operation;
 - (v) no vehicular movements to and from the property take place between the hours of 11.00pm and 6.00am seven days a week; (except that a vehicle may, within these time, return to its base at the completion of the driver's period of work and leave at the start of a period of work subject to there being no more than one movement to and one movement from the premises during the above seven hour period each day); and
 - (vi) no maintenance other than minor servicing takes place on or at the property;
 - (b) Aerials:

If the one car business is deemed not to require planning permission in accordance with (a) above, then any aerial erected in connection with that business will not require planning permission provided that:-

- (i) if attached to the property, it does not extend more than 1 metre above the ridgeline of the property; and
- (ii) if freestanding, the structure is no more than 3 metres high to the tip of the aerial from the ground level.

Where planning permission is deemed to be required, i.e. for the operation of two or more taxis or private hire vehicles and the associated communications equipment, then the acceptability of the proposed will generally be tested by reference to the impact of the proposed use on residential amenity, on-street car parking conditions and the character and appearance of the locality.

Note: Provided no valid planning complaints are received regarding the operation of the business, the Local Planning Authority will continue to honour the informal guidance offered to proprietors who were operating a maximum of two taxis/private hire vehicles from a property prior to 1st January, 1994.

However, proprietors who were operating only one vehicle prior to and since 1st January, 1994, will now need to apply for planning permission if they wish to increase their number of vehicles to two or more.

Any pre-1994 two vehicle operators will also be required to apply for planning permission if they wish to increase their number of vehicles to three or more.
