<sup>1</sup> The Integrated Impact Assessment (IIA) integrates Sustainability Appraisal (SA), Strategic Environmental Assessment (SEA), Equalities Impact Assessment (EqIA) and Health Impact Assessment (HIA). Sustainability Appraisals (SA) are a requirement of the Planning and Compulsory Purchase Act 2004 and Strategic Environmental Assessments (SEA) are required by European Directive EC/2001/42, which was transposed into UK law by the Environmental Assessment Regulations for Plans and Programmes (July 2004). The EqIA is a way of demonstrating the District Council is fulfilling the requirements of the Public Sector Equality Duty contained in section 149 of the Equality Act 2010. HIA is a recognised process for considering the health impacts of plans and undertaking this type of assessment is widely seen as best practice.

7. The DPD is not sound because it is not:

- |                                     |                                     |

| (1) Positively Prepared             | <input type="checkbox"/>            |
| (2) Justified                       | <input checked="" type="checkbox"/> |
| (3) Effective                       | <input checked="" type="checkbox"/> |
| (4) Consistent with national policy | <input type="checkbox"/>            |

8. Please provide precise details of why you believe the DPD is, or is not, legally compliant, sound or in compliance with the duty to cooperate in the box below.

If you wish to provide supplementary information to support your details, please ensure they are clearly referenced.

With regards to the changes to Policy DM8, we note the rewording of the first paragraph, removes the emphasis from 'the main built up areas' and makes the policy more generic in that it simply now refers to development away from villages or settlements. However, there are no alterations to (or removal of) the development boundaries in the policies maps to reflect this.

Policy DM8 (8) relates to the development of employment uses. The wording is proposed to be altered to allow 'larger scale development' where the need is demonstrated. These changes are welcomed, but additional supporting information should be provided to confirm what is deemed to be appropriate need. For example, a demand side need brought about by prospective tenants should be supported.

The proposed additional paragraph is welcomed in general. The aim of the additional paragraph relates to expansion of businesses or new businesses with the open countryside. The proposed wording begins to support expansion of existing business areas, such as industrial estates, as opposed to the existing wording of the policy which only supports the expansion of 'existing businesses'.

The wording of the last sentence should be altered to ensure the other 'appropriate sites' which are to be considered are within the nearest village/settlement to which the development site relates.

On this basis, we agree with the direction of travel with the changes to DM8 but believe that additional detail and justification should be included to allow a more accurate interpretation by developers when considering the expansion of existing business parks within the open countryside.

(Continue on a separate sheet/expand box if necessary)

9. Please set out what change(s) you consider necessary to make the DPD legally compliant or sound, having regard to the test you have identified at 6 above where this relates to soundness. You will need to say why this change will make the DPD legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

As detailed above, the proposed wording of Policy DM8 is generally welcomed but does not allow an easy interpretation by developers looking to expand within the open countryside.

Additional supporting paragraphs or altered wording to the policy as above should be included within Policy DM8 to further detail how development of existing business parks should be considered.

(Continue on a separate sheet/expand box if necessary)

Please note your Representation should cover succinctly all the information, evidence and supporting Information necessary to support/justify the Representation and the suggested change, as there will not normally be a subsequent opportunity to make further Representations based on the original Representations at the Publication stage. After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for Examination.

10. If your Representation is seeking a change, do you consider it necessary to participate at the oral part of the examination?

No, I do not wish to participate at the oral Examination.	Yes, I wish to participate at the oral Examination.
<input type="checkbox"/>	<input checked="" type="checkbox"/>

11. If you wish to participate at the oral part of the Examination, please outline why you consider this to be necessary.

To allow additional correspondence and justification

(Continue on a separate sheet/expand box if necessary)

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the Examination.
