

2021 Community Facilities Monitoring Report

1. Introduction:

1.1 This report presents the monitoring results for community facilities in the Newark and Sherwood District for the period 1st April 2020 to 31st March 2021. It forms an important part of the evidence base for the Newark and Sherwood Local Development Framework (LDF).

A) BACKGROUND

1.2 This Community Facilities Monitoring Report is produced in line with similar reports on Housing and Employment Land that the Council has produced for many years and provides a useful record of development that has occurred in the district. This information is used to see whether the aims and objectives of the Development Plan policies are being met. For the purposes of this monitoring report, the Amended Core Strategy (2019) and supporting evidence base has been used to monitor the development of these facilities in the district.

1.3 This report has several functions:

- 1)** It helps to assess the success of community facility policies within the adopted Development Plan;
- 2)** It will be used to assist in the development of community facility policies within the Council's emerging Development Plan;
- 3)** It is in accordance with the NPPF which requires Local Planning Authorities to have evidence base underpinned by up-to-date evidence;
- 4)** Provides information to agents, developers, and other agencies about the availability of community facilities;
- 5)** It assists with other monitoring undertaken by the Planning Policy & Infrastructure Business Unit.

Disclaimer: The information in this report is provided in good faith and is as accurate as records permit, no guarantee is given about possible errors.

Data Sources: Data in this document is sourced from Newark and Sherwood District Council planning and building control records using Uniform systems and survey information.
